DATE MAILED:

Please find below and/or attached an Office communication concerning this application or proceeding.

Commissioner for Patents

Applicant's election of Group I, (A) homomultimeric compounds that binds to at least two PSGL-1 proteins; (D) antigen binding domain of an anti-PSGL-1 antibody; inflammatory disease; and (A) absence of detecting the number of T cells or detecting the biological activity of the T cells with traverse is acknowledged

It appears that the telephone interview on 10/18/2006 and, in turn, applicant's election have dealt with the inaccuracies or mischaracterizations associated with the nature of the compound (e.g., PSGL-1 versus anti-PSGL-1 antibodies) set forth in the previous Restriction Requirement, mailed 10/4/06.

Other than the election of species, applicant does not appear to traverse the Restriction Requirement.

The requirement is still deemed proper and is therefore made FINAL.

Although applicant elected inflammatory disease, applicant should elect a single disclosed species of an inflammatory disease (e.g. psoriasis, asthma) as the ultimate species, as indicated in the Restriction Requirement, mailed 10/4/06.

Since applicant has received an action on the merits for the originally presented invention, applicant's response is considered non-responsive. Since the amendment appears to be a bona fide attempt to be a reply (37 CFR § 1.135(c)), applicant is given a TIME PERIOD of ONE (1) MONTH from the mailing date of this notice within which to re-submit the corrected section which complies with 37 CFR § 1.121 in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Phillip Gambel whose telephone number is (571) 272-0844. The examiner can normally be reached Monday through Thursday from 7:30 am to 6:00 pm. A message may be left on the examiner's voice mail service. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Christina Chan can be reached on (571) 272-0841.

The fax number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
